Agosto 2019

Prêmio de US\$ 1 milhão

Exercício 1: Netflix Prize

Recomendar um Filme

- Considerando que você vai recomendar filmes para usuários do Netflix, detalhe:
 - Que dados você levaria em consideração?
 - Que passos você seguiria para recomendar um filme para um usuário.

Filtragem Colaborativa

- Técnica de recomendação

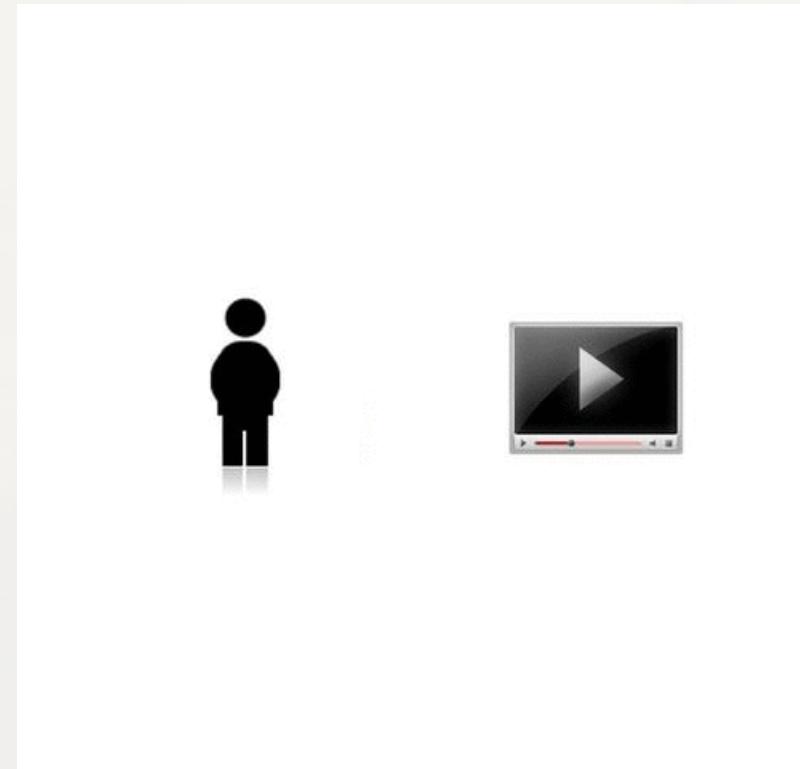

- Exemplo baseado em

https://en.wikipedia.org/wiki/Collaborative_filtering

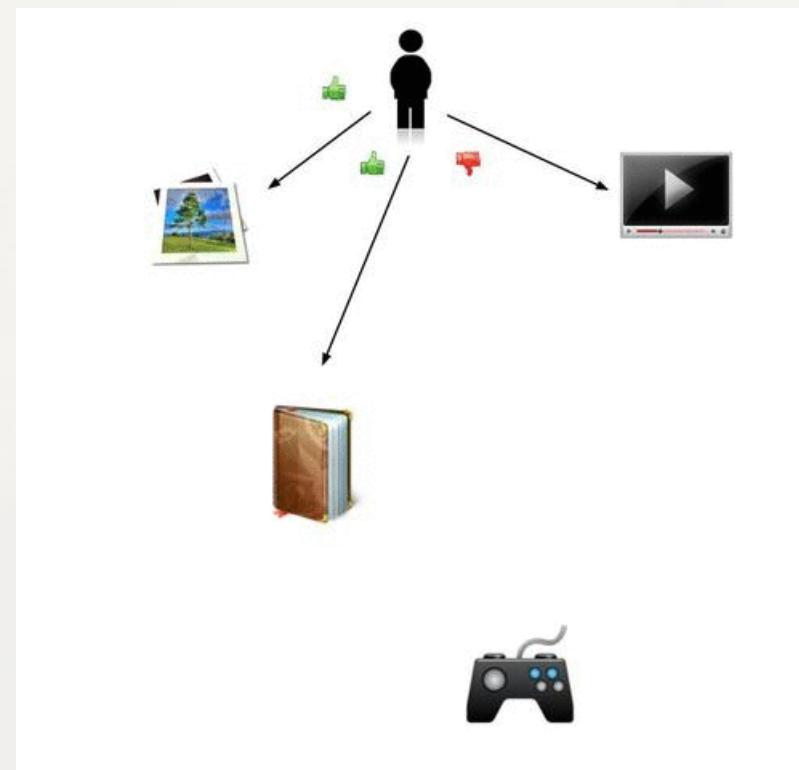

Itens candidatos a recomendação

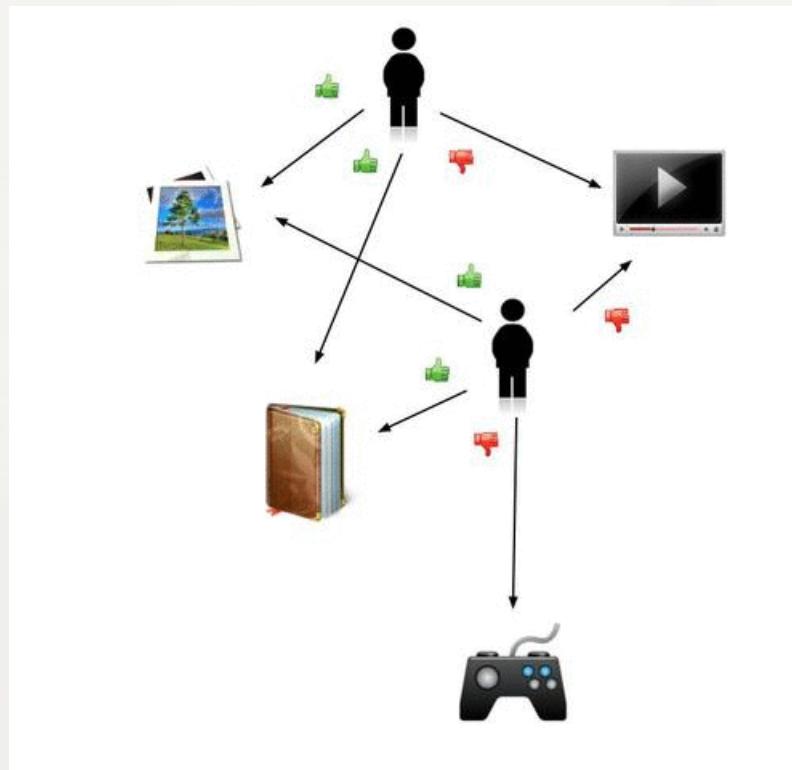

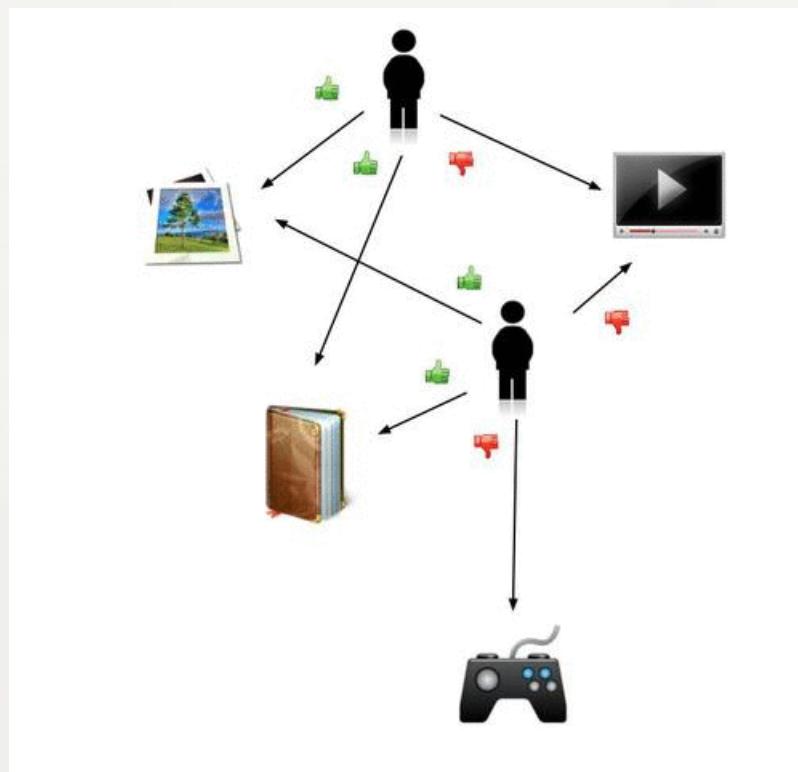

Devo recomendar para Asdrubal?

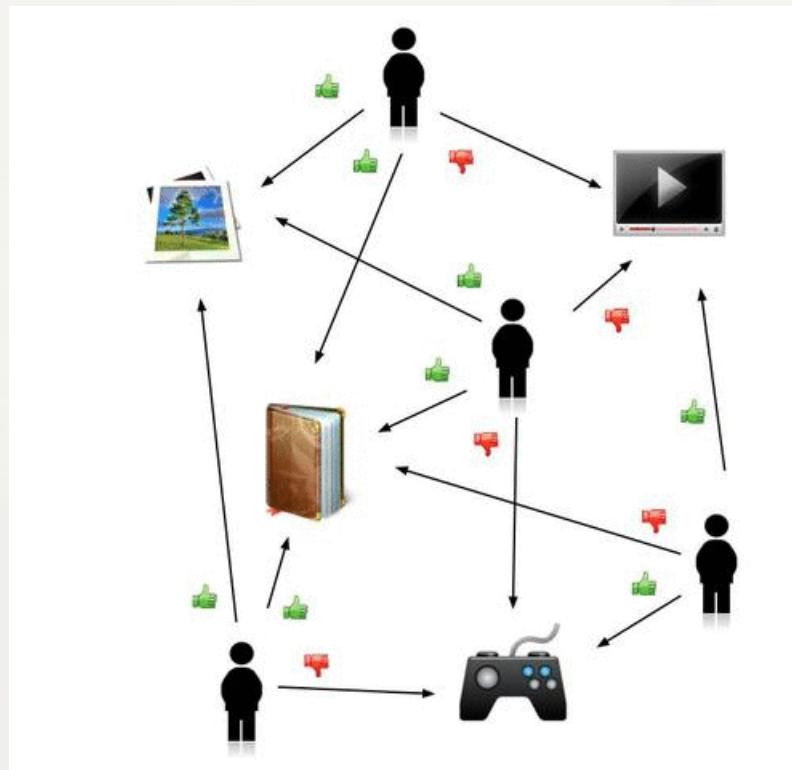

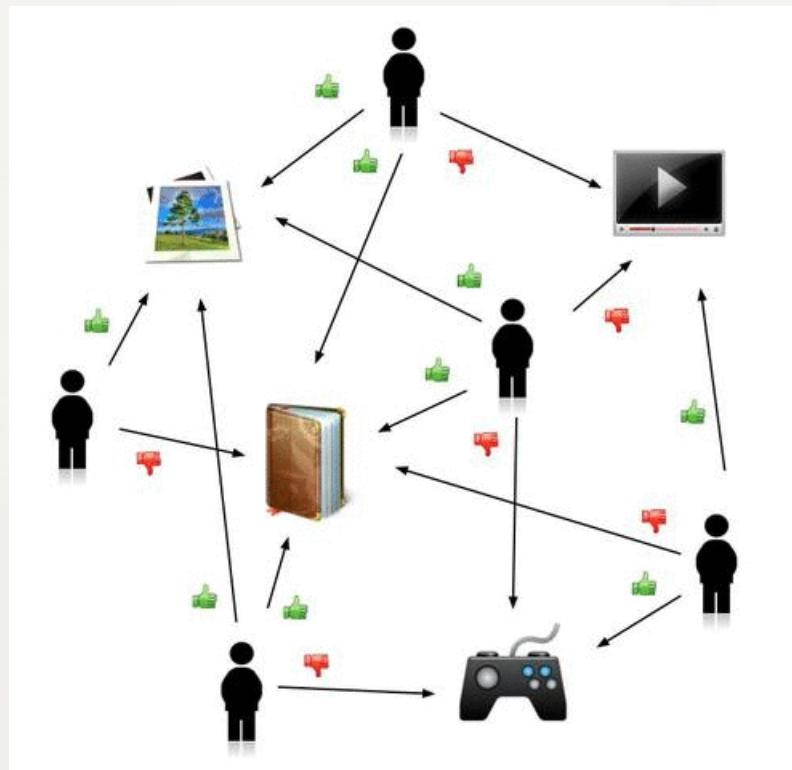

Usuários e suas avaliações

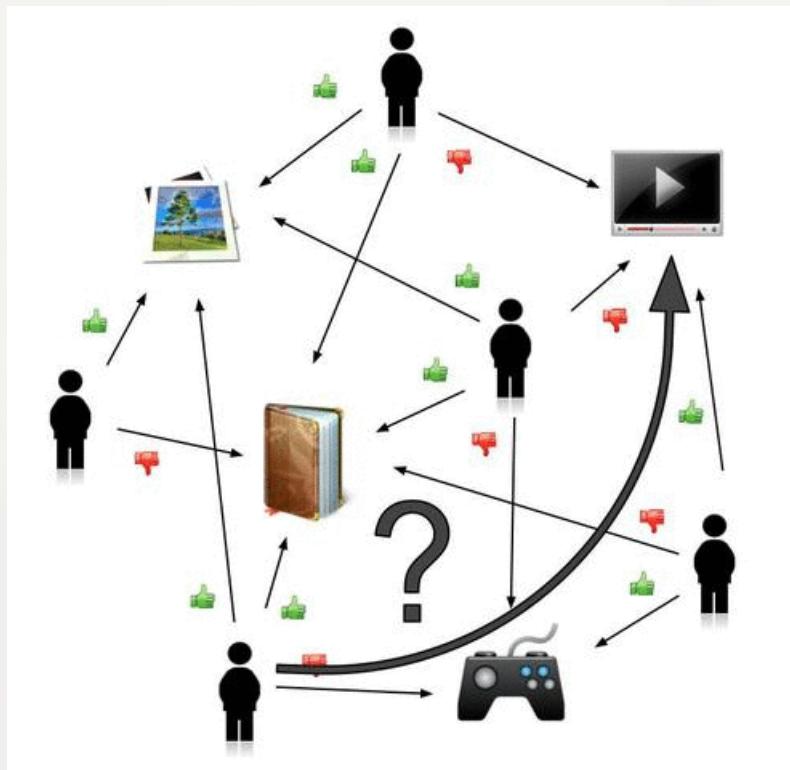

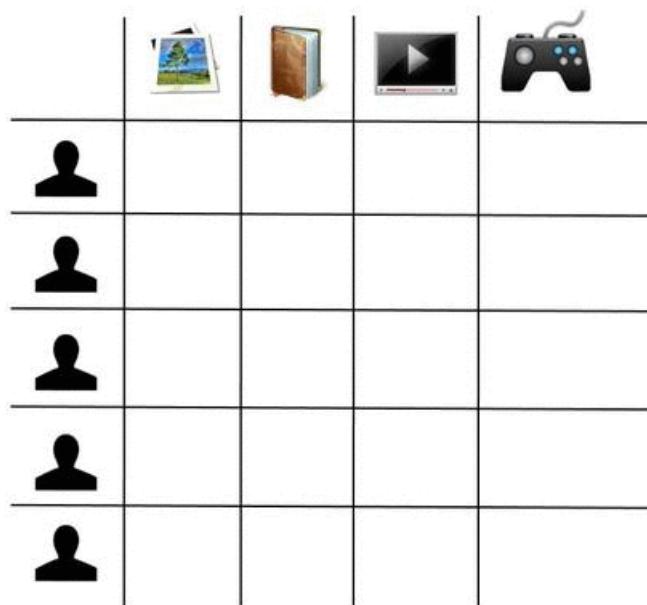

Vendo sob outra perspectiva

Usuários e suas avaliações

	Image	Image	Image	Image
User 1	Thumbs Up	Thumbs Down	Thumbs Up	Thumbs Up
User 2		Thumbs Up	Thumbs Down	Thumbs Down
User 3	Thumbs Up	Thumbs Up	Thumbs Down	
User 4				
User 5				

O que recomendar para Asdrúbal?

	Álbum	Livro	YouTube	Jogos
Usuário 1	+	-	+	+
Usuário 2		+	-	-
Usuário 3	+	+	-	
Usuário 4	-		+	
Usuário 5	+	+	?	-

Olhar a avaliação dos demais?

E se os demais não pensarem
como Asdrúbal?

Exercício 2: Netflix Prize

Refinando a Recomendação

■ Refine a recomendação para:

- Que dados você levaria em consideração?
- Que passos você seguiria para recomendar um filme para um usuário.

Selecionando Usuários Similares

Filtragem Colaborativa

	Album	Book	Movie	Game
User 1	Like	Dislike	Like	Like
User 2		Like	Dislike	Dislike
User 3	Like	Like	Dislike	
User 4	Dislike		Like	
User 5	Like	Like	?	Dislike

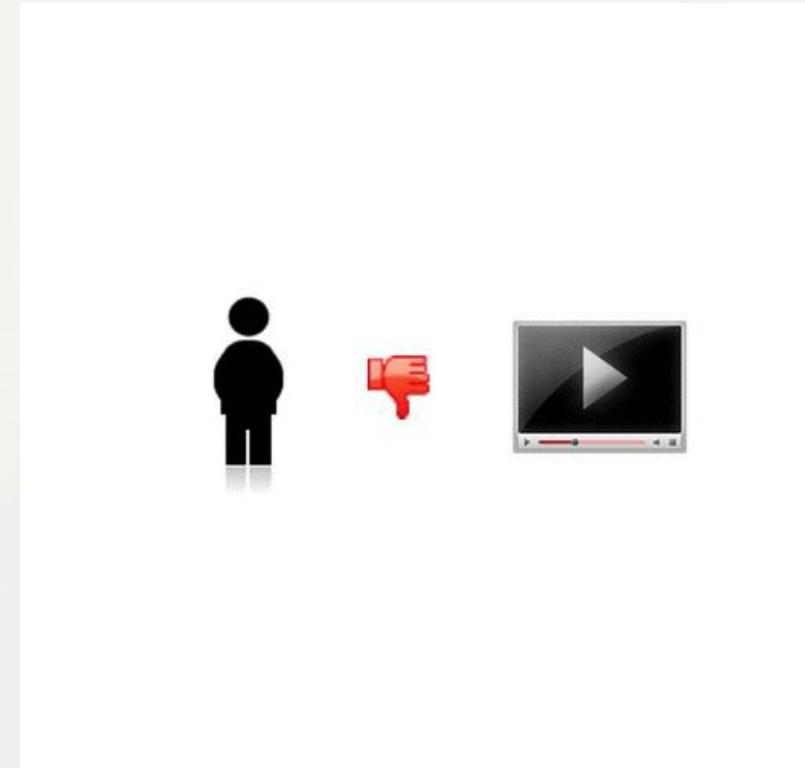

Indicando a partir dos similares

Filtragem Colaborativa

	Image	Book	Video	Game
User 1	Like	Dislike	Like	Like
User 2		Like	Dislike	Dislike
User 3	Like	Like	Dislike	
User 4	Dislike		Like	
User 5	Like	Like	Dislike	Dislike

Indicando a partir dos similares

Filtragem Colaborativa

Começando com Banco de Dados

Motivação

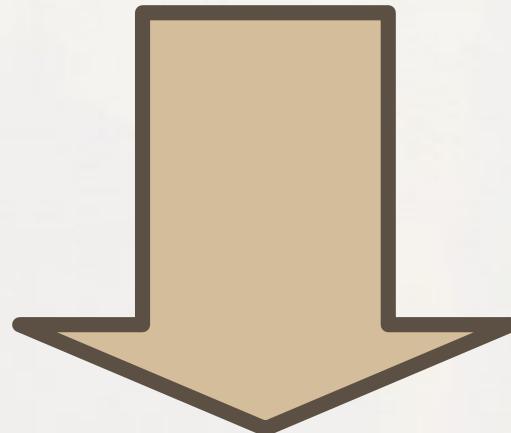

- Aplicações computacionais de todos os portes trabalham com grandes volumes de dados
 - Gerenciamento de uma farmácia
 - Sistema bibliotecário
 - Sistema bancário

Motivação

- Grandes volumes de dados e suas relações complexas justificam a criação de estratégias específicas para gerenciá-los

Motivação

- Grandes volumes de dados e suas relações complexas justificam a criação de estratégias específicas para gerenciá-los

Bancos de Dados

Aplicações Tradicionais

- Bancos de dados numéricos e tradicionais
- Exemplos:
 - Gerenciamento de uma farmácia
 - Sistema bibliotecário
 - Sistema bancário

Aplicações

■ Aplicações mais recentes

- Bancos de Dados Multimídia
- Sistemas de Informação Geográfica (GIS)
- Data Warehouses
- etc.

Banco de Dados

Aplicação Exemplo

■ Gerenciamento de uma biblioteca

■ Serviços:

- Cadastro de membros associados
- Registro do acervo (ex.: livros, revistas etc.)
- Controle de empréstimos

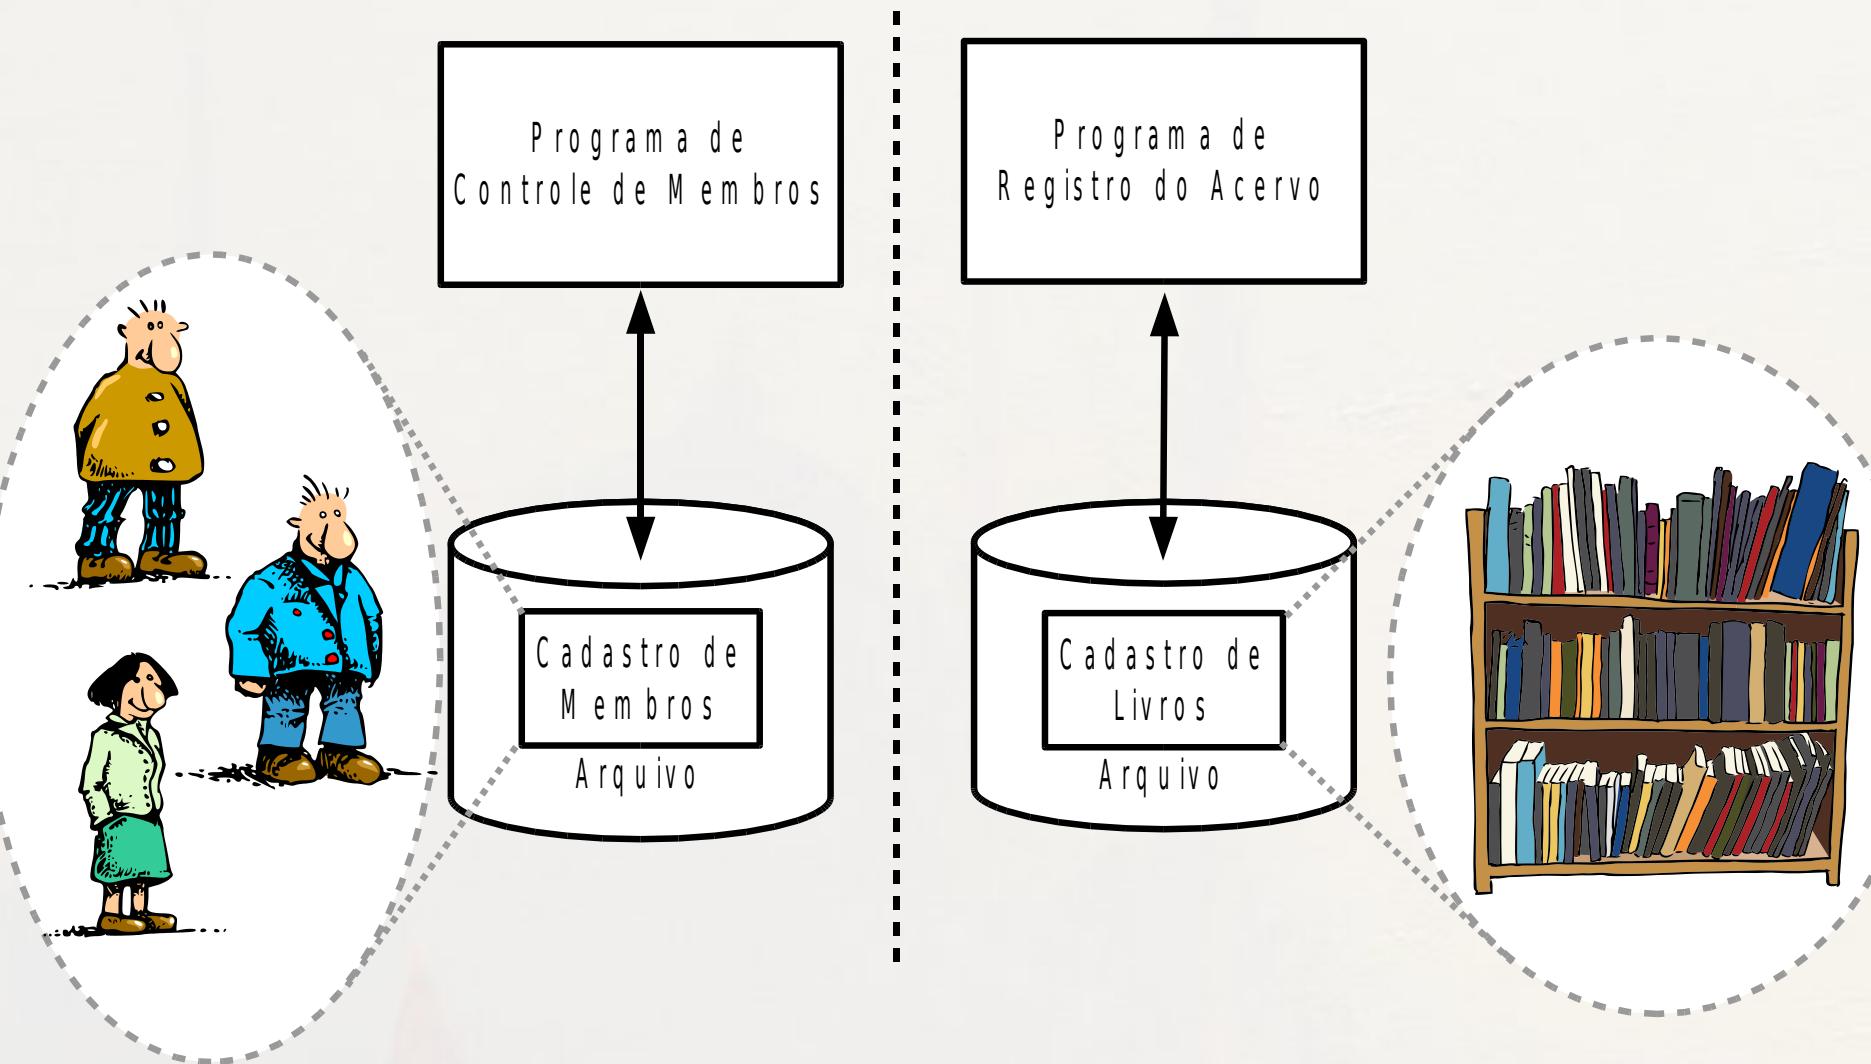

Banco de Dados

Perspectivas

- Arquitetura
- Abstração

Banco de Dados Arquitetura

Sistemas Isolados

Sistemas/Arquivos Isolados

■ Redundância não controlada

- Repetição
- Inconsistência

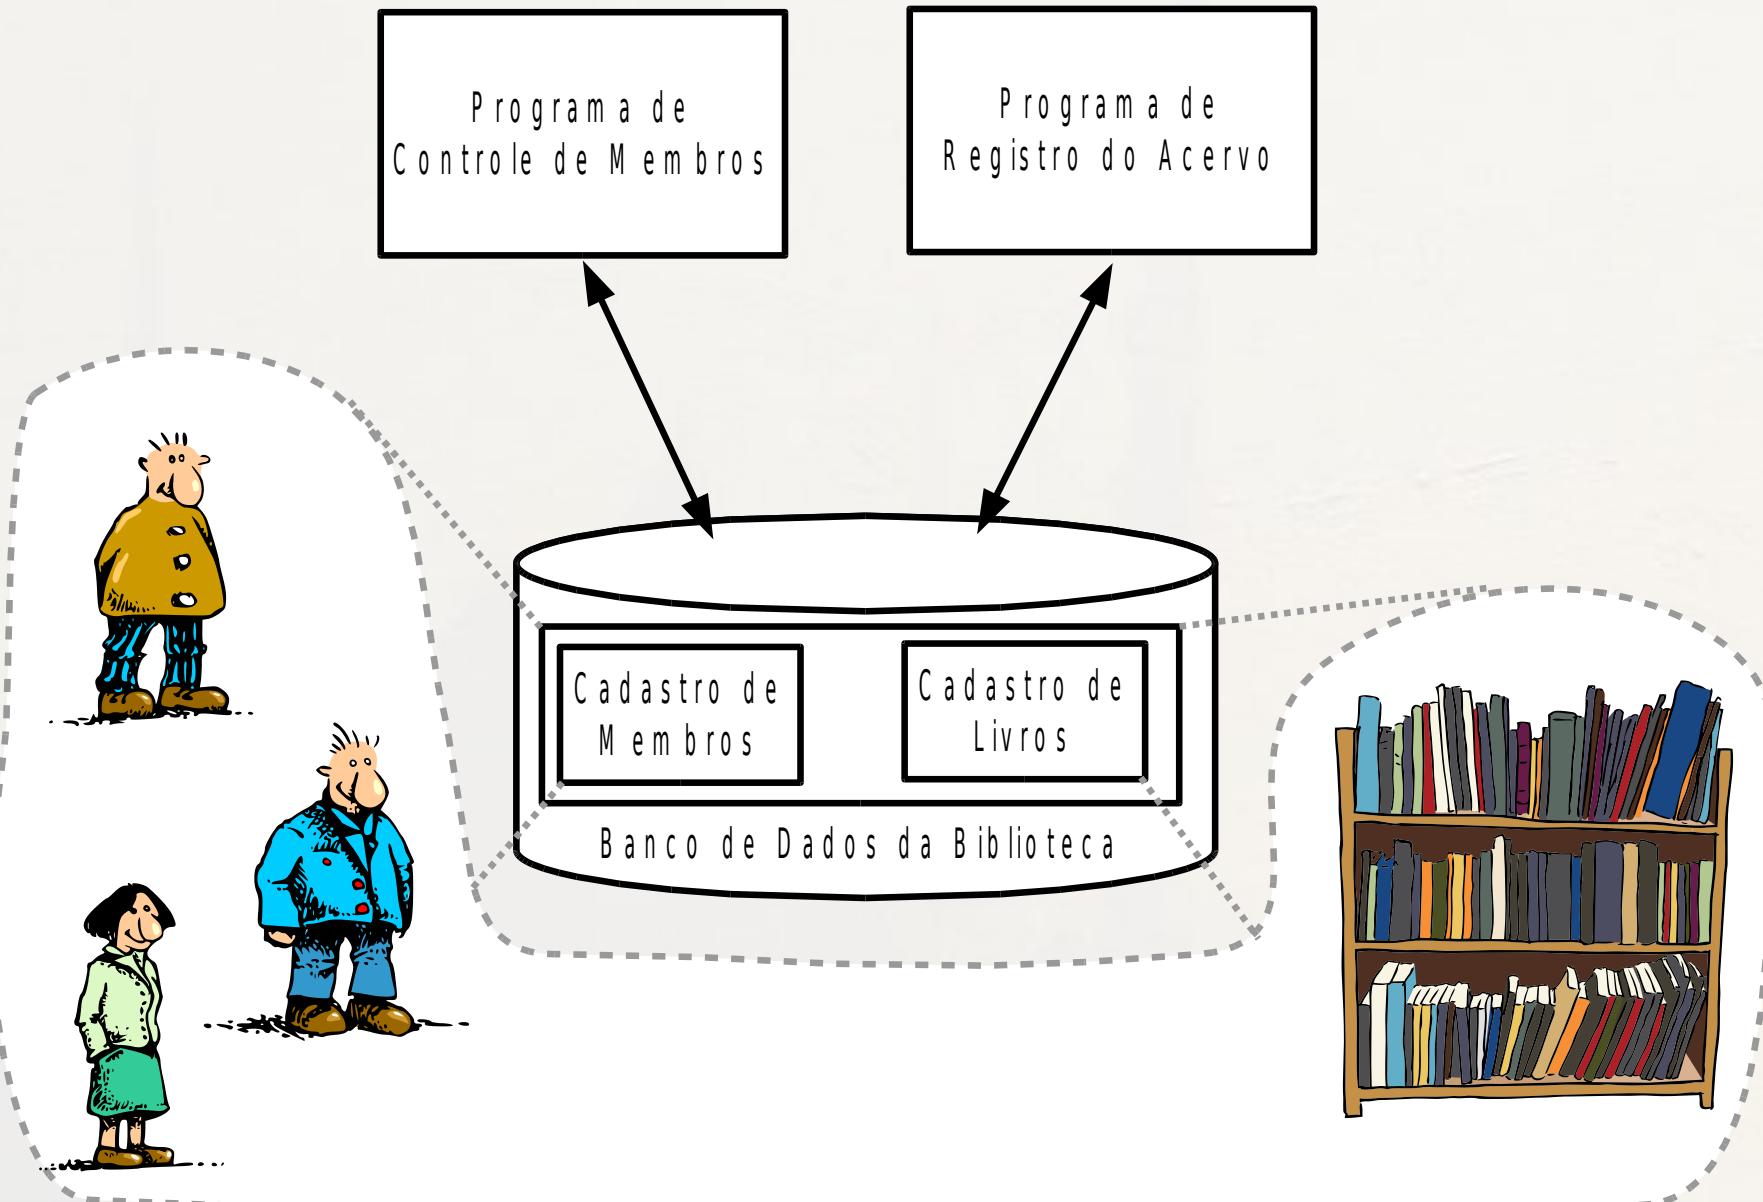

■ Barreiras para relacionamento entre arquivos

■ Dificuldades com:

- acesso concorrente
- integridade e recuperação em caso de crash
- segurança e controle de acesso

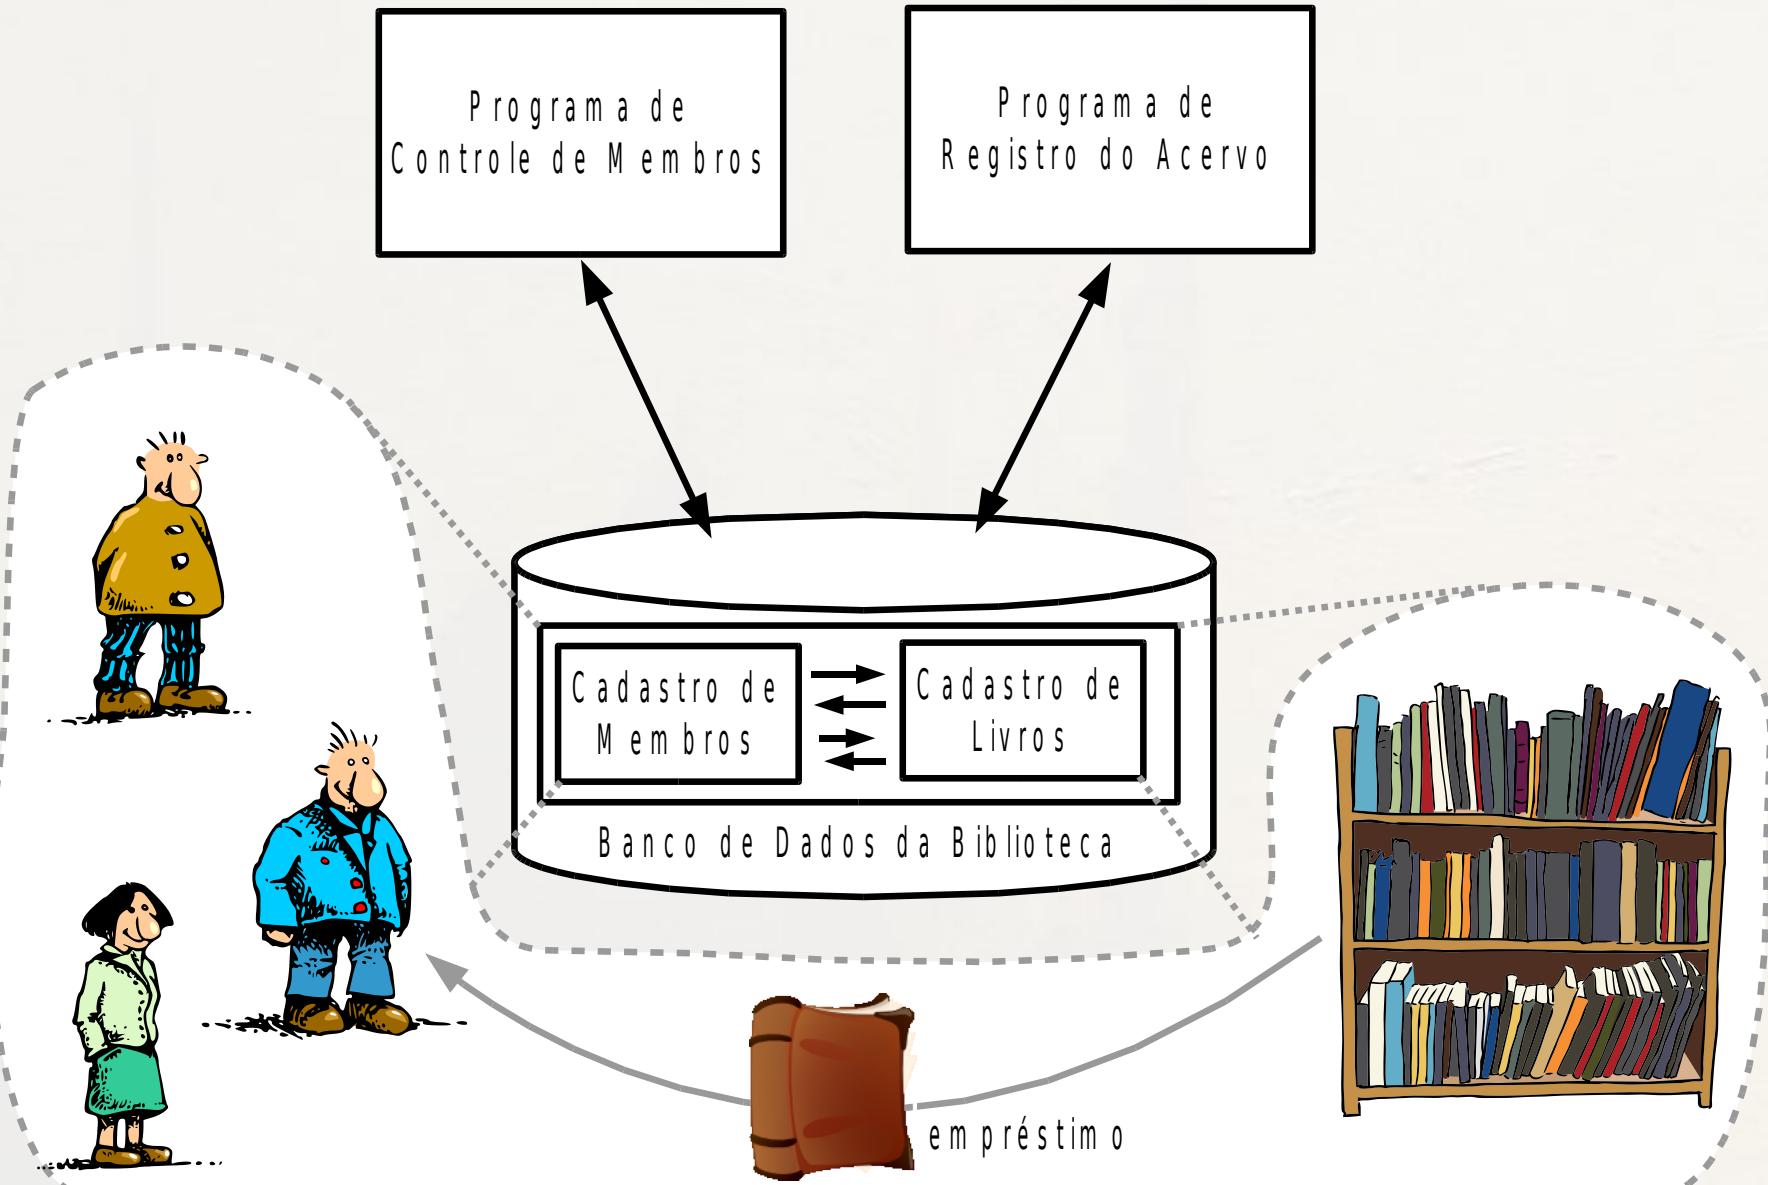

Banco de Dados

Compartilhamento de Dados

Banco de Dados

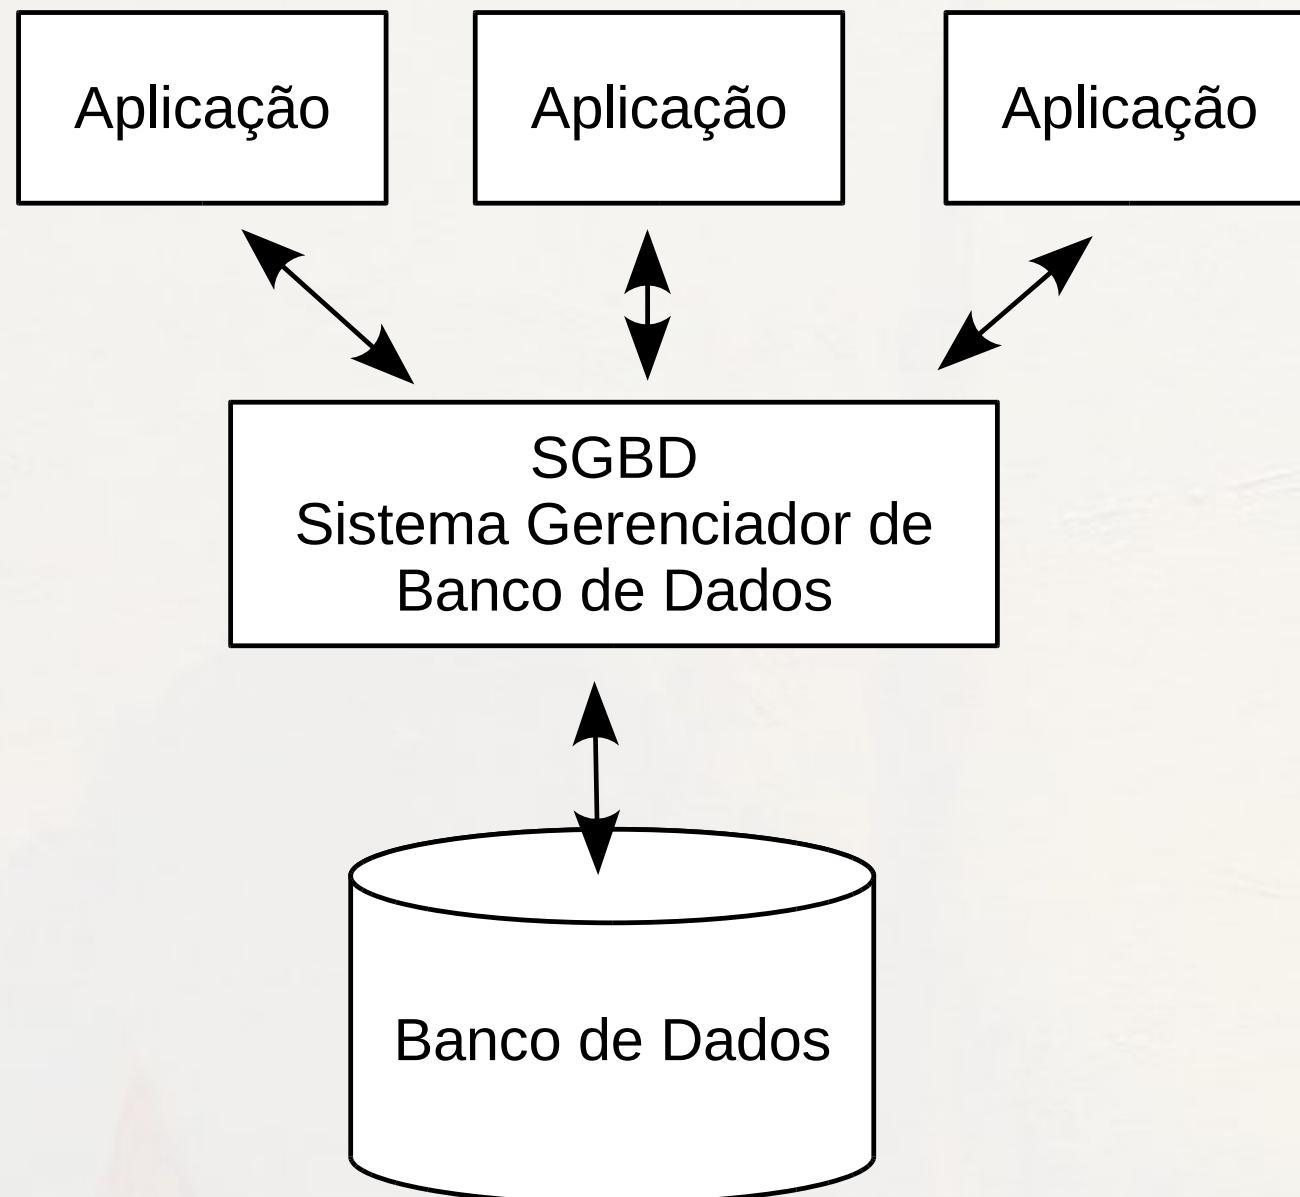

Relações entre os Dados

Sistema Gerenciador de Banco de Dados (SGBD)

- Sistema de software com finalidade genérica
- Projetado para a definição, construção e manipulação de bancos de dados
- Pode atender várias aplicações

SGBD

Vantagens de um SGBD

- Independência de dados
- Acesso eficiente
- Tempo reduzido no desenvolvimento de aplicações
- Segurança e integridade de dados
- Administração de dados uniforme
- Acesso concorrente
- Recuperação contra *crashes*

(Ramakrishnan, 2003b)

O que está mudando?

- Dados estão por toda a parte
 - não somente centralizados em um banco
 - produzidos de forma distribuída e interligados
- Modelagem e semântica ganham importância
 - Web Semântica e ontologias
- Data deluge e Big Data
 - novas abordagens (NoSQL)
 - processamento e armazenamento descentralizados

Data Deluge

Alemanha e Big Data

- SAP is using Big Data to help the German coaching staff **make smart decisions** on tactics, player fitness, scouting, preparation as well as in game management. SAP has introduced a new concept called **SAP Match Insights** that assists players and coaches to prepare themselves for upcoming matches by dissecting key situations that may present themselves throughout the course of the match.

Paris

From Wikipedia, the free encyclopedia

Coordinates: 48°51'24"N 2°21'03"E

This article is about the capital of France. For other uses, see [Paris \(disambiguation\)](#).

Paris (English /pærɪs/, /pɛrs/; French: [paʁi] (listen)) is the capital and most populous city of France. It is situated on the River Seine, in the north of the country, at the heart of the Île-de-France region. Within its administrative limits (the 20 arrondissements), the city had 2,234,105 inhabitants in 2009 while its metropolitan area is one of the largest population centres in Europe, with more than 12 million inhabitants.

Data Scientist

What is Data Science?

<https://datajobs.com/what-is-data-science>

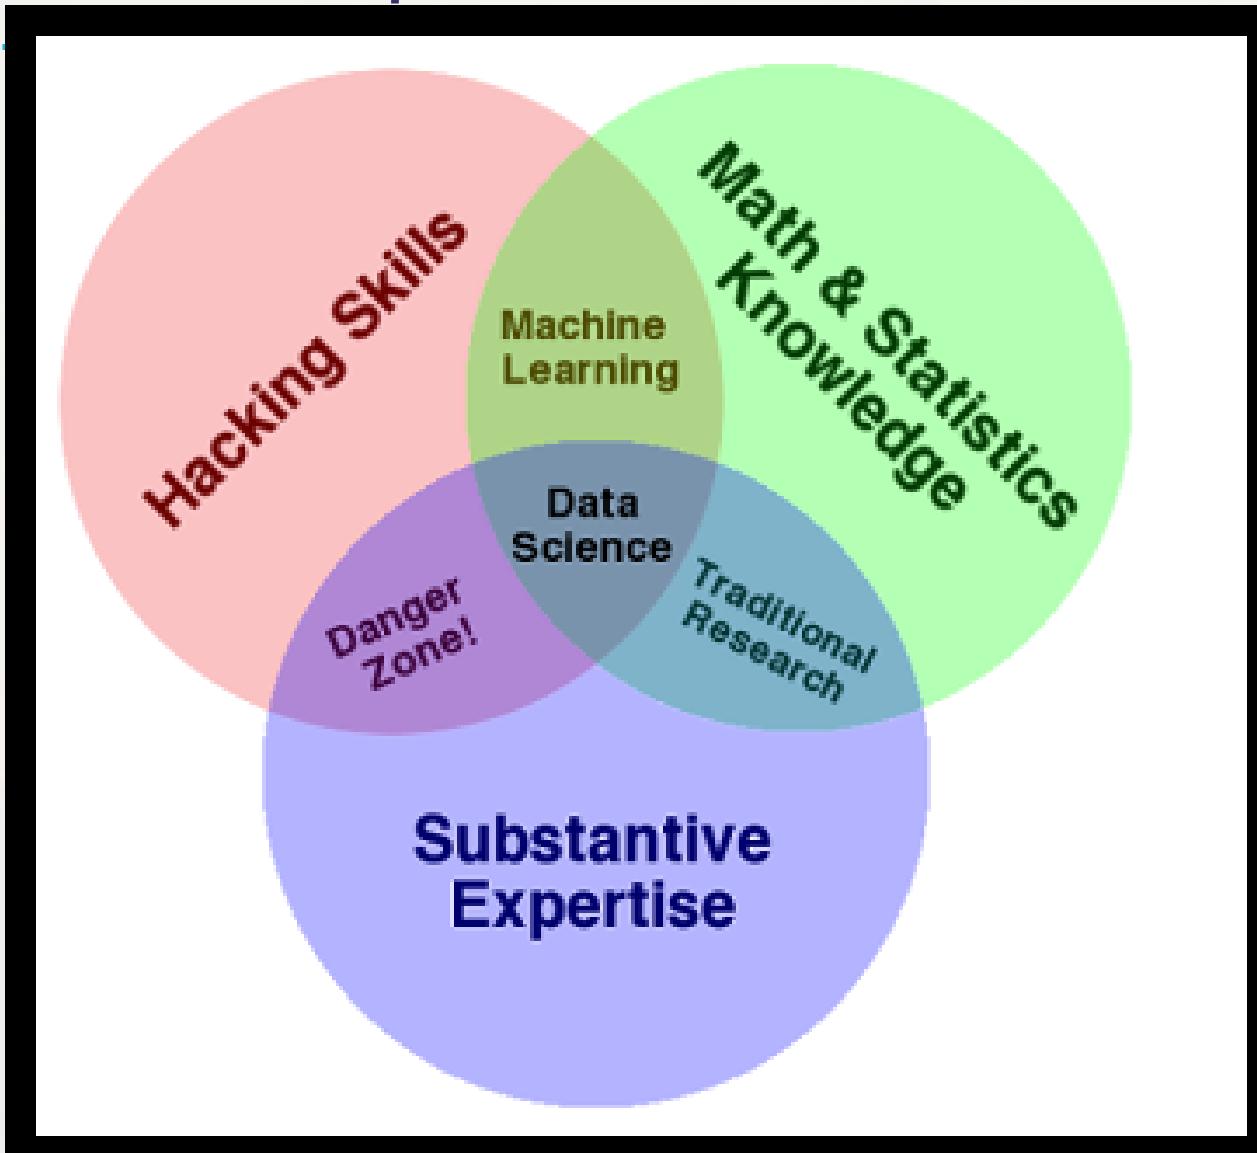

So you Want to be a Data- Scientist

Michael Spencer - 21/07/2015

<https://www.michael-spencer.com>

@michael-spencer

Você quer ser um Data Scientist?

MATH & STATISTICS

- ★ Machine learning
- ★ Statistical modeling
- ★ Experiment design
- ★ Bayesian inference
- ★ Supervised learning: decision trees, random forests, logistic regression
- ★ Unsupervised learning: clustering, dimensionality reduction
- ★ Optimization: gradient descent and variants

PROGRAMMING & DATABASE

- ★ Computer science fundamentals
- ★ Scripting language e.g. Python
- ★ Statistical computing packages, e.g., R
- ★ Databases: SQL and NoSQL
- ★ Relational algebra
- ★ Parallel databases and parallel query processing
- ★ MapReduce concepts
- ★ Hadoop and Hive/Pig
- ★ Custom reducers
- ★ Experience with xaaS like AWS

Você quer ser um Data Scientist?

DOMAIN KNOWLEDGE & SOFT SKILLS

- ★ Passionate about the business
- ★ Curious about data
- ★ Influence without authority
- ★ Hacker mindset
- ★ Problem solver
- ★ Strategic, proactive, creative, innovative and collaborative

COMMUNICATION & VISUALIZATION

- ★ Able to engage with senior management
- ★ Story telling skills
- ★ Translate data-driven insights into decisions and actions
- ★ Visual art design
- ★ R packages like ggplot or lattice
- ★ Knowledge of any of visualization tools e.g. Flare, D3.js, Tableau

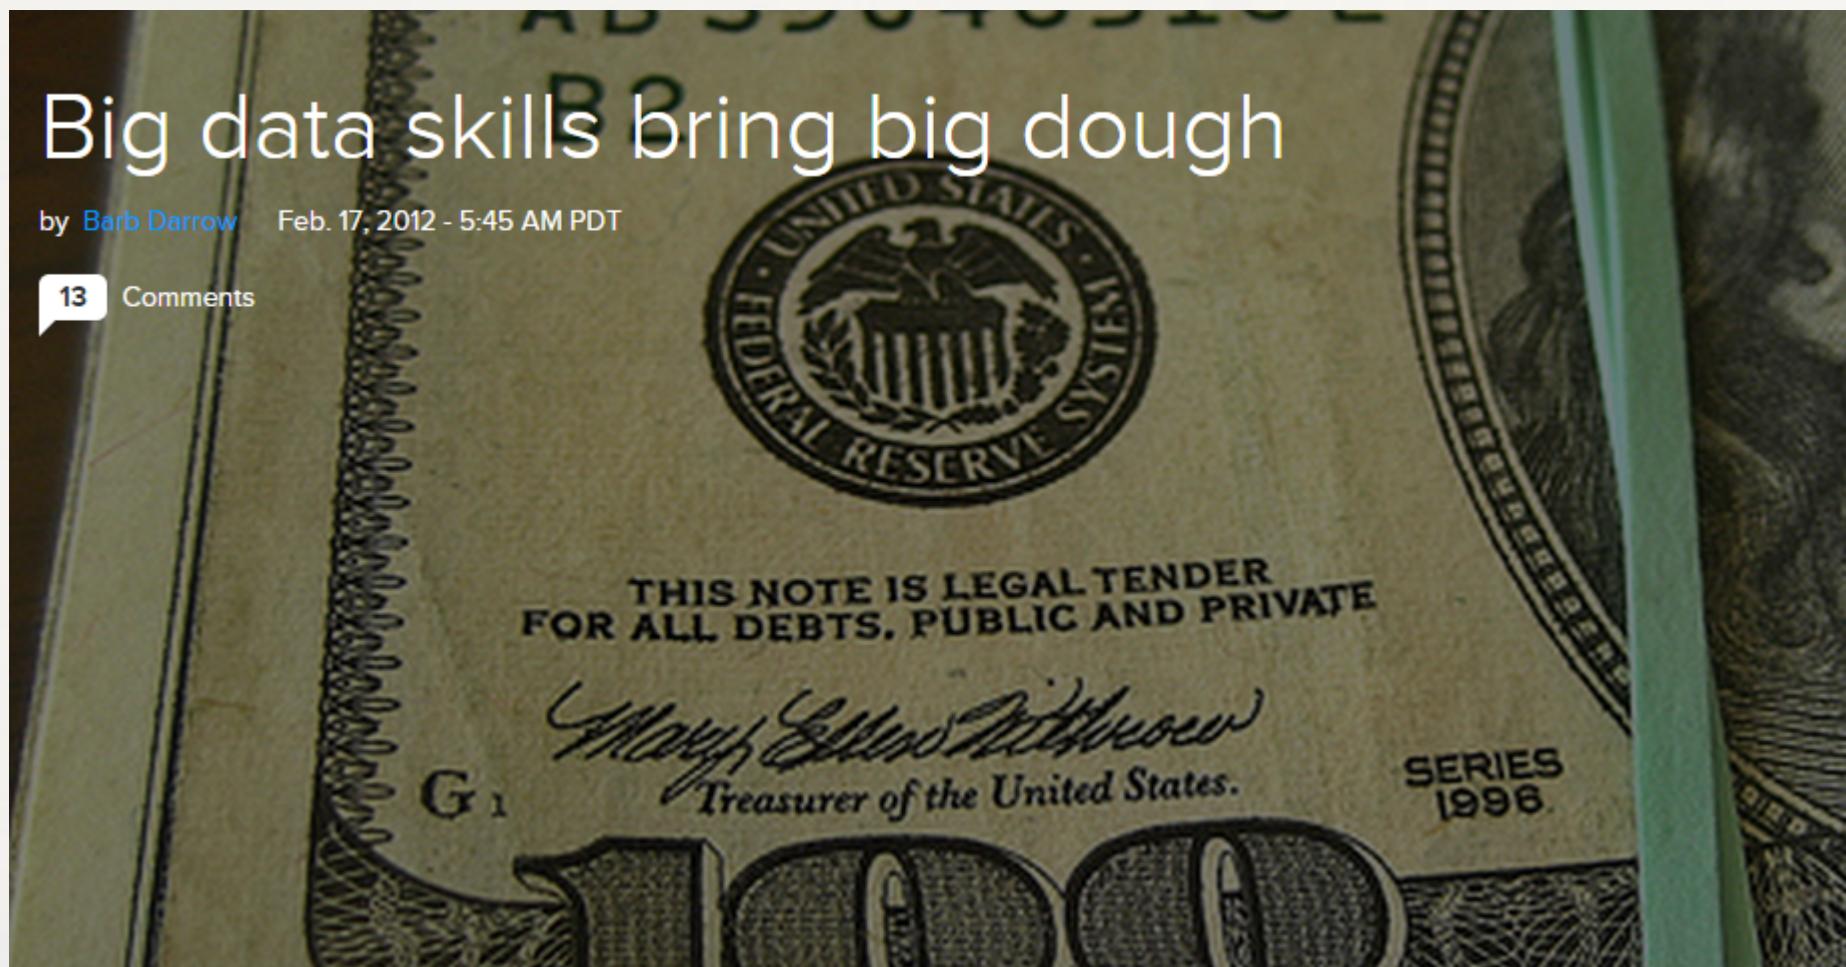

Competências mais buscadas por recrutadores brasileiros – LinkedIn / 2015

Ranking	Categoria de competência
1	Análise estatística e mineração de dados
2	Desenvolvimento mobile
3	Segurança de qualidade (QA) de software e teste de usabilidade
4	Logística
5	Arquitetura da web e frameworks de desenvolvimento

Competências mais buscadas por recrutadores brasileiros – LinkedIn / 2015
